MINING, BUSINESS AND STOCKS.

gas as succession as a construction and a construct

IN BEHALF OF DEEP CREEK.

Those Interested Decide to Do Something for That Camp.

AT MEETING LAST NIGHT.

Prof. Jones Delivers an Interesting Lecture on the Undeveloped Resources of the District.

There was an interesting meeting in one of the parlors of the Commercial club last evening when 50 of the people interested in the development of the Deep Creek mining district came together and after listening to various expressions regarding the best means of developing the region in question and transporting the ores to market, proceeded to form a permanent association with John Dern as chairman and J. P. Gardner as secretary.

This was accomplished following a very excellent lecture on the mineral wealth of the Deep Creek region by Prof. Marcus E. Jones. This discourse consisted of a statement as to the reason for the gathering, which, said the speaker, was for the purpose of ascertaining whether sufficient interest could be aroused in the matter to get toether and gather information regarding the Deep Creek region for distribu-tion in the east. He stated that since he first went through the region in 1891 he had visited Deep Creek some 12 or 15 times.

The professor then proceeded to devote his attention to the various mining camps scattered over a country 300 miles in length by 150 in breadtn. He claimed that the larger camps of Utab vere fully half worked out while the Deep Creek region was practically unscratched. If the region were properly advertised in the east he affirmed that it would not be long ere railways, smel-ters and other accessories to a thriving mining district would spring up on an

Dr. Jones was followed by a number of speakers who spoke in the same vein, among them being John Dern, Angus M. Cannon, H. B. Windsor, J. D. Hamilton and R. M. Johnson of Chicago.

Subsequently a committee of three was appointed by the chair to prepare hlet setting forth the resources of Deep Creek. Those appointed are William Babcock, J. P. Gardner and William Babcock, J. P. Gardner and J. L. Moats to supervise the publication of the pamphlet. The three gentlemen named thereupon signified their eager-ness to be allowed to subscribe to-ward the work. Mr. Gardner promised \$100, George Moats also signified his willingness to be drawn upon for from \$150 to \$200. Babcock promised \$100 and the Carrison Gold Mining company came forward with an offer of \$50.

During the evening Mr. Eabcock submitted figures on the publication, which will consist of about 64 pages, twenty of which will be devoted to illustrations and the balance descriptive matter by Dr. Jones.

MINING STOCK EXCHANGE. But One Session Today and It a

Light One. Considering that it was one-session

day at the exchange, the dealings were pnormally small and there was nothing to create enthusiasm in any of the Daly-Judge and Daly-West showed slight advances, the former selling at \$9,121/2, as against \$8.90 at the close

yesterday afternoon, and but one block was taken-100 shares. The latter scored lower in shares-10-and showed gain of 25 cents over yesterday's clos-Martha Washington sold voluminously, 32,000 shares having changed hands and the stock shows a disposition to

advance. It opened at yesterday's clos-ing figure, 2% cents, and advanced steadily to the finish when it scored All the other features of the day sold

TOTAL.

N. A. Page, Stock Broker,

Loans money on stocks at bank rates. Room 26, Walker Bank building. DALY-WEST.

Its Regular Dividend With a Big Surplus Over.

When it is known that the Daly-West company not only paid its regular dividend yesterday afternoon, amounting to \$18,000 at 60 cents a share, but carried forward a large surplus to the reserve fund, the wonder that the price of the shares is brought down so low will become more pronounced. The directors are having a meeting this afternoon at which a statement of the present trans-actions at length will be prepared and

issued for publication.

The regular annual meeting of the stockholders takes place in February, when the amount of the surplus will be made known. It is not to be expected, either from the present situation of things or from anything else that may reasonably be looked for, that there will be the slightest diminution in the work. ings of the property or any falling off in the dividends whatever course silver may take; the reserve fund is sufficient for all immediate emergencies at least.

OIL LAND INCORPORATION. The Westwater Oil and Asphaltum Co. Is Organized.

Articles of incorporation of the Westwater Oll and Asphaltum company were filed with the county clerk yesterday. Salt Lake City is named as the principal place of business, the work to be carried on in Grand and adjoining counties. The capital stock is placed at \$250,000, divided into 1.000,000 shares object of the company, as explained in the articles, is to transact a general business of exploring for petroleum, as-phaltum and other hydro-carbons, with the view of leasing or purchasing the properties when located. Large sections of lands have been bonded in Grand county.

The officers are: J. E. Ray, president John La Due, vice president, and R J. Evans, secretary and treasurer, who, with Lucian A. Ray and S. P. Arm-strong, are the directors.

Ore and Bullion. The ore and builion shipments for

the week from Tintic were as follows:

Eagle & Blue Bell Mammoth

The Mammoth mill shipped one bar of gold-silver bullion. Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$21,300, as follows: Silver, lead, gold and copper ores, \$14,800; base bullion, \$6,500.

TRADING DULL AND LISTLESS

At Opening of Market Prices of Stocks Sagged.

SOME FEVERISH RALLIES.

Traders Who Had Sold Short Bought -Closing Was Dumpish And Irregular.

New York, Dec. 6 .- Opening prices of stocks sagged on dull and listless trading. Feverish rallies occurrred in a few stocks, but the tendency was soon checked by a reaction in St. Paul to 171%. Most of the active leaders fell below the opening level on small offerings. There were railles, followed by practical stagnation. The bank statement was so nearly as expected that it produced little effect beyond some buying by traders who had sold short in anticipation of a selling movement. Hocking Valley, New York Central and Sugar rose a point over last night. Rock Island, preferred, Colorado Fuel and Republic Steel, preferred, lost a poirt, U. S. Express 2% and Northwestern 2 per cent. The covering movement by shorts lifted some prices above last night's close. The closing was dull and irregular.

SILVER'S DECLINE **BUT TEMPORARY**

Payment of Chinese Indemnity Hav- Not Only Good but in Excess of ing Some Effect,

REVIVAL WILL COME LATER

The Tetro of Tintle Looking Up-On The Stock Exchange-General Mining News.

How long can sliver be kept down so low and its production continue? is a question that is rife in and around the naming stock exchange; and having the effect upon them, those most nearly concerned are looking about and making inquiry as to the cause. That silver ver is as royal a metal as ever, that it is as much needed in the channels of commerce as ever, and more so, is undis puted, so that those whose business auses them to be brought near to it are naturally prone to giving the subject absorbing attention. Undoubtedly, in looking upon the matter as one of supreme importance, in view, not only of its own status but the interests and industries which through it are upheld and forwarded, the producers and dealers are abundantly justified in looking ahead as well as around.

The matter is discussed in all its phases, and the question has been submitted to the "News" with the desire eliciting information as to whether the Chinese situation is responsible al together for the unprecedented and, it

would seem, unwarranted slump which

has at least shown itself no respecter

of properties, the Daly-West and the humblest name on the lists going side

by side toward the bottom.

There is an impression in the minds of some that the Chinese indemnity is payable in the prevailing Chinese coinsilver-while others have a different understanding. The latter are correct. An indemnity, especially one of such great proportions, would have no fixed or stable status if the amount were subject to constant fluctuations by the shifting in values of the monty in which it was to be paid, and as gold is the only metal whose value does not change, of course the settlement is on that basis. Besides, all the beneficiaries of the indemnity are gold standard na-tions and will deal on no other basis. To obtain the necessary gold China must seil her silver at a sacrifice, thus draining herself and overloading other nations as to silver, and even then has paid and can pay no part of the principal. But the drainage must stop soon, for China is not a sliver-producing country, and the debt will then be placed upon another basis; so soon as this is effected no doubt the silver paid out will drift back, the work of re habilitation will make largely increase will drift back, the work of redemands for it, and then will silver again move up the scale. Water seeks its level, as do other things.

GOING RIGHT AHEAD.

The Tetro of Tintic, a Type of Many Others, Pushing Along.

One of the promising properties of as the result of circumstances other than the failure or even shrinkage of its natural resources is the Tetro. During a recent visit to that town a"News" representative went over the ground in which the mine is located and was deeply impressed with it. The same as to the Uncle Sam in the same locality, which was gone through from end to

The Tetro's compressor is now repaired and work is progressing full-handed. An air of business activity is apparent and shipments of ore of good quality and large quantity are looked for at in early day.

Oil Mention.

F. M. Kennedy, the manager of the Utah-Cincinnati Oil company, is in the city from the oil fields. Mr. Kennedy is on his way to Uinta county, Wyo., is on his way to Uinta county, Wyo., where the company has extensive holdings of oil lands. He will put in an assessment rig and proceed with the work of singing assessment holes. After spending the holidays with his family in Duluth, Minn., he will return to Utah, and pass the winter in Iron county, where his company has lately acquired extensive holdings of iron county, where his company has lately acquired extensive holdings of iron lands. The company has abandoned work on the oil well on the San Rafael swell for the winter. This action was due to the cold weather and the scarcity of water. Mr. Kennedy says that with the opening of spring he will be tack with a force of men and push the lrilling of the well to completion.

dministratrix of the Estate of Char-les B. Tuckfield, deceased, Ben Johnson, Attorney, Dated Salt Lake City, Utah, Dec,

BUSINESS IS

Iron and Steel Markets Continue Irregular-Farm Products Keep Up In a Remarkable Manner.

"The course of commodity prices is shown by Dun's index number, which was \$100.449 on Dec. 1, against \$99.75 on Nov. 1 and \$101,378 on Dec. 1, 1901. Higher prices for dairy and garden products account for the rise during November, but it is particularly gratifying to the consumer that the present level is nearly 1 per cent lower than at the corresponding date last year. This change is also in foodstuffs, where the cost of living was abnormally expanded by short crops in 1901.
"A further advance in raw wool gives

better value to the finished products, but selling prices are without alteration. "Irregularity is reported in the iron and steel markets, most departments having much business, while a few are seeking new orders and seem disposed to make slight concessions.
"Farm products are remarkably well sustained, considering the liberal quan-

tities moved to market. "Statistics of failures during November disclosed no weakness in the in-dustrial structure. On the contrary, there is every evidence of strength."

BUSINESS NOTES.

Rocky Mountain Bell Telephone stock has fallen from par to \$99 and \$99.50 since the granting of a franchise to the new company, and some of the stockholders have offered their shares for sale with ready takers.

Dealers say that eastern flour is beouantities, mainly because the local growers refuse to let down on prices.

Kansas and Nebraska wheat is being delivered on the cars at 50 cents, while in this state the farmers are said to steadily demand as high as 83 cents. As against this stiffness the eastern made goods are rolling in here in great quantities, and shipments of 100,000 pounds are no rarity now.

STILL HUA MING

Previous Years.

WOOL IR CES ADVANCED.

New York, Dec. 5 .- R. G. Dun & Co.'s Weekly Review tomorrow will say: 'Aside from the interruption to retail trade in winter goods at many points by unseasonable weather, business activity continues in excess of previous years, and it is probable that all the postponed trade will be made up, now that low temperature has become general. While the warmest November on record at the east affected sales of clothing, it helped to restore the fuel equilibrium. Manufacturing plants are

has spread over the community on ac-

ver, the signs of a rally in the price have somewhat dispelled the clouds, and nave somewhat dispelled the clouds, and there is a better feeling at the end of when the conclusion of last week. It is somewhat remarkable to note that the slump in mining stocks, has only resulted in stiffening quotations in the commercial stocks. Brokers say, however, that this is to be expected, as the violent fluctuations in mining investements never fail to squeeze speculators, es-

never fail to squeeze speculators, especially when lenders who have been advancing money on mining stocks, call for their margins. This always leaves sore places in the market, and for a long time causes investors to fight shy of mining securities, hence money seeking investment naturally turns to avenues where stability is the locked for nues where stability is to be looked for and the best commercial stocks are correspondingly sought for.
This has been shown during the week

This has been shown during the week by the quest for nearly all the stocks in the commercial list, and the advance in several of the prices. Utah Sugar has advanced to \$20.50, and prices on the new issue of preferred and common are selling at \$9.35 to \$9.95 for the former, and \$3.85 to \$4.00 for the latter. Con-solidated Wagon preferred, in spite of the fact that its new issue was placed on the market Dec. Ist remains steady on the market Dec. 1st, remains steady at \$100 to \$100.50. Amalgamated Sugar preferred advanced to \$9.99. Rocky Mountain Bell Tel. showed a little weakness, owing to the granting of the franchise to the rival company, and sold at \$99.50 per share. The special dividends paid by the Deseret National and the Deseret Savings, the first of 5 per cent and the latter of 3 per cent, had an excellent effect on the market generally and those securities especially. The dividend of 1% per cent on the new preferred stock of the Utah Sugar company will be paid on the 31st.

State of Utah, department of Board of Pardons, Salt Lake City, Utah, Dec. 6th, 1902. To Whom it May Concern: Notice is hereby given that the State Board of Pardons will hold a regular session on Saturday, Dec. 20th, 1902, at 10 o'clock a. m. at the Supreme Court Room, City and County Building, Salt Lake City, Utah.

That at said meeting said Board will hear applications for pardon in the following cases, to-wit:

Parlane McFarlane, convicted of murder in the first drgree. Charles Bothe, convicted of murder. Thomas Jasper Williams, convicted of branding a horse not his property. George Beck, convicted of misdemeanor, Joseph J. Markes, convicted of house breaking. Cal Adamson, convicted of petit larceny. Walter Geer, convicted of simple assault. Andrew Hungarpah, convicted of voluntary manslaughter.

All persons having any interest therein, desiring to be heard, either for or against the granting of sald applications respectively, are hereby notified to be present at said meeting.

By order of the Board.

HEBER M. WELLS.

President.
